

Generating a Design

Thought Shower and Design Brief

WILF:

- ✧ To know that products are designed for a specific purpose or audience in mind.
- ✧ To appreciate the aesthetic qualities of a design.

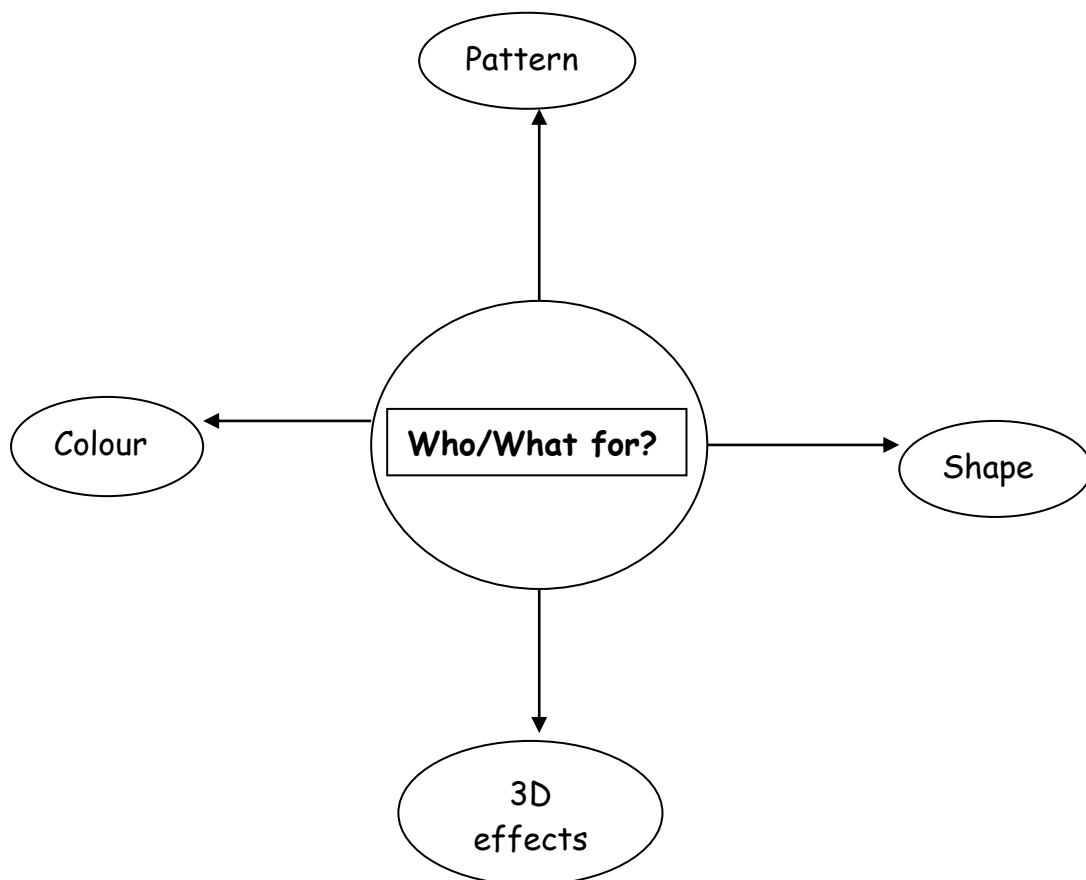

Today you are going to be designing your sarcophagi. Your sarcophagus will be a 'replica' so you need to think carefully about your design. This is called your design brief.

My brief is:

.....

.....

You can now use the brief to help you think about what your sarcophagi must achieve to be successful and meet the brief. This will inform your design.

- What must your sarcophagus do to be successful and meet the design specification?
- How will your sarcophagus be informative?
- Which materials will you use to make it? Why?
- How will you make your sarcophagus aesthetically pleasing?
(Draw one element of your design below and label it.)

Final design:

Now you have researched 3 different sarcophagi, you need to decide on your own design. Look at your different sarcophagi again and think carefully about how you are going to fulfil your design brief best, is it suitable for you audience and is it creative?

You need a detailed diagram that includes 3D elements and any decorative details you intend to have.

Final design
